Policy Statement

At Oyster Park Primary school, we recognise that spiritual, moral, social and cultural development is central to the education of all pupils and permeates the whole curriculum and ethos of the school. It is reflected in the behaviours of individuals and in their interactions and also in the provision of teaching, resources and learning environments.

Curriculum

SMSC development is taught through and reflected in all areas of the curriculum and through all aspects of school life. Pupils are provided with the opportunities to gain knowledge and understanding and to develop the skills they need to participate in the life of the diverse community in which they live.

The Spiritual development of children is shown by their:

- ability to be reflective about their own beliefs, religious or otherwise, which inform their perspective on life and their interest in and respect for different people's feelings, values and faiths.
- sense of enjoyment and fascination in learning about themselves, others and the world around them, including the intangible
- use of imagination and creativity in their learning
- willingness to reflect on their experiences.

The Moral Development of children is shown by their:

- ability to recognise the difference between right and wrong, and their readiness to apply this understanding in their own lives. To have a respect for the civil and criminal law of England
- understanding of the consequences of their behaviour
- interest in investigating, and offering reasoned views about, moral and ethical issues. Able to accept, respect and appreciate that others may have a different viewpoint.

The Social Development of children is shown by their:

- use of a range of social skills in different contexts, including working and socialising with pupils from different religious, ethnic and socio-economic backgrounds
- willingness to participate in a variety of social settings, cooperating well with others and being able to resolve conflicts effectively
- willingness to volunteer
- interest in, and understanding of, the way communities and societies function at a variety of levels
- acceptance and engagement with the fundamental British Values (see the school teaching British Values Policy statement) of democracy, the rule of law, respect and tolerance of those with differing faiths and beliefs. Their attitudes towards these British values allows the children to participate fully in and contribute positively to life in modern Britain

The Cultural Development of children is shown by their:

SMSC POLICY

- understanding and appreciation of the wide range of cultural influences that have shaped their own heritage and that of others
- willingness to participate in, and respond to, for example, artistic, musical, sporting, mathematical, technological, scientific and cultural opportunities
- understanding and appreciation of the wide range of different cultures within school and further afield as an essential element of their preparation for life in modern Britain
- interest in exploring, understanding of, and respect for cultural diversity and the extent to which they understand, accept, respect and celebrate diversity, as shown by their attitudes towards different religious, ethnic and socio-economic groups in the local, national and global communities.

Planning

In planning lessons, teachers are aware of the need to plan opportunities to develop a wide variety of spiritual, moral, social and cultural needs. A vast majority will be delivered through cross-curricular activities as well as specific PSHE, Social Skills, RE and Circle Time activities.
